The UW Autism Center and the UW Haring Center present

Transforming Challenging Behaviors in Your School and Community

DESCRIPTION

Are challenging behaviors impacting your classroom? Do you know why they are happening? Do you know what to do about them? Attend this 2-day workshop and learn to:

- Effectively identify challenging behaviors and teach skills to replace them
- Implement strategies to prevent challenging behaviors and tips for what to do "in the moment"
- Use practical and manageable systems for collecting and analyzing data
- Collaborate with teams to monitor behavior change plans, including fidelity of implementation

Participants will engage in case studies and activities to enhance learning. Additionally, you will have opportunities to observe effective positive behavior support strategies in action at the Experimental Education Unit (EEU).
